SCOPE OF CERTIFICATION  
 MICROBAC LABORATORIES, INC.  
 CAMP HILL DIVISION  
 CAMP HILL, PENNSYLVANIA

| ANALYTE          | METHOD               | ANALYTE                   | METHOD        |
|------------------|----------------------|---------------------------|---------------|
| <u>METALS</u>    |                      | <u>PCB</u>                |               |
| Antimony         | SM 3113 B            | as decachlorobiphenyl     | Not certified |
| Arsenic          | SM 3113 B            |                           |               |
| Barium           | EPA 200.7            | <u>VOC</u>                |               |
| Beryllium        | EPA 200.7            | 20 regulated VOC          | EPA 524.2     |
| Cadmium          | SM 3113 B            | Vinyl chloride            | EPA 524.2     |
| Chromium         | EPA 200.7; SM 3113 B | DBCP                      | EPA 504.1     |
| Copper           | EPA 200.7            | EDB                       | EPA 504.1     |
| Lead             | SM 3113 B            |                           |               |
| Mercury          | SM 3112 B            | <u>THM</u>                |               |
| Nickel           | EPA 200.7            | 4 THM                     | EPA 524.2     |
| Selenium         | SM 3113 B            |                           |               |
| Thallium         | EPA 200.9            | <u>PAH</u>                |               |
|                  |                      | Benzo(a)pyrene            | EPA 525.2     |
| <u>NONMETALS</u> |                      |                           |               |
| Nitrate          | EPA 300.0            | <u>ADIPATE/PHTHALATE</u>  |               |
| Nitrite          | EPA 300.0            | Di(2-ethylhexyl)adipate   | EPA 525.2     |
| Fluoride         | EPA 300.0            | Di(2-ethylhexyl)phthalate | EPA 525.2     |
| Cyanide          | SM 4500-CN<br>C, E   |                           |               |
|                  |                      |                           |               |
